

The image displays a technical drawing of a mechanical component, consisting of two views: a side view on the left and a cross-section on the right.

**Side View (Left):** This view shows the profile of the part. It features a horizontal top surface with a central section that is 24 units wide, as indicated by the dimension line and the number "24". The profile includes a vertical section on the right side and a horizontal base. A horizontal dashed line represents the centerline of the part.

**Cross-section (Right):** This view shows the internal structure of the part. It is a semi-circular shape with a vertical centerline, indicating symmetry. The cross-section is defined by two concentric semi-circular arcs, suggesting a hollow or layered structure. A horizontal dashed line represents the centerline of the part.

**Scale:** The scale is indicated as "Ech 1:1" in the bottom right corner, meaning the drawing is at a 1:1 scale.
