

CONFIGURATION DXF POUR RCS2D MAROQUINERIE

The image shows a screenshot of the 'Configuration: ROMANSCAD' dialog box. The dialog is divided into two main sections: 'Geometric Elements' on the left and 'Quality' on the right. The 'Geometric Elements' section has a table with columns for 'Layer' and 'Color'. The 'Quality' section has a table with columns for 'Layer' and 'Color'. Below these tables are various options and buttons.

Annotations in French point to various elements:

- TRACEUR** (Red box) points to the 'Contour' element.
- DECOUPE INTERNE** (Orange box) points to the 'Marks' element.
- PERFORATEUR 1 (Gros diamètre)** (Yellow box) points to 'Drills 1'.
- PERFORATEUR 2 (Petit diamètre)** (Black box) points to 'Drills 2'.
- POINTEUR** (Black box) points to 'Pricker'.
- ECRITURE DU TEXTE SUR LA PIECE** (Black box) points to 'Labels'.
- ENTAILLE POUR PLIAGE** (Green box) points to 'Cut with another Tool'.
- TRAIT DE CONTOUR DE LA PIECE** (Green box) points to the 'Contour' element.
